

# LOW-CODE APPLICATION DEVELOPMENT CAPABILITIES

Bovian combines technical expertise, a team spirit, and excellent customer service to be your "go to" firm for low-code technologies with expertise in:

MS SharePoint

PowerApps / Power BI Configuration

Power Platform Implementation Customization and Support

## CORE DEVELOPMENT COMPETENCIES

- ✓ **Project Planning** - Bovian captures pain points, recommended improvements, and functional processes before starting any development project.
- ✓ **Process Automation** - Bovian improves business processes by integrating Power Apps and Power Automate to support SharePoint development, low-code integration, and workflow automation solutions.
- ✓ **Reporting** - We create reports and dashboards using different technical approaches such as Power BI, SQL Reporting, Canvas and Module apps visualization to help leaders visualize data.
- ✓ **Migrations** - We migrate legacy, on-premise application to cloud environments using Metalogix and ShareGate ensuring seamless data transfer, minimal downtime, and full functionality in the new environment.
