# Bovian ENTERPRISES

SHAREPOINT AND POWERAPPS CAPABILITIES

Bovian combines technical expertise, a team spirit, and excellent customer service to be your "go to" firm for Microsoft technologies with expertise in:

MS SharePoint

PowerApps / Power BI Configuration

Power Platform Implementation Customization and Support

CORE DEVELOPMENT COMPETENCIES

- ✓ **Project Planning** - Bovian **captures pain points, recommended improvements, and functional processes** before starting any development project.

- ✓ **Process Automation** - Bovian improves business processes by **configuring automated workflows** to optimize performance using SharePoint, Designer, Office 365/Power Automate, and Nintex solutions.

- ✓ **Reporting** - We **create reports and dashboards** using different technical approaches such as Power BI, SQL Reporting, Canvas and Module apps visualization to help leaders visualize data.

- ✓ **Migrations** - We use **Metalogix and ShareGate** to **migrate data** from legacy systems to updated Microsoft environments.
